

Looking to **reduce the cost** and pain of online ordering?

That's why Fuller's chose trade simple.

*"trade simple works really well for us and we would recommend it to other regional brewers. It provides **comprehensive** purchasing control at a very reasonable cost and is **seamlessly** delivered across our managed estate while smoothly handling the complexity of supplying 3rd party products as well as our own. The associated pain of online ordering is handled for you and the entire process is **optimised** with increased speed and **efficiency**."*

Colin Simpson, IT Director, Fuller's
